

Science in the Paddock

WITH ICT International

Discover how to monitor for optimal water use & species selection!

Join ICT International to explore:

- Plant function
- Water response and growth
- Impacts of soil condition on establishment
- Sap flow monitoring and psychrometry
- Tree monitoring in practice

And find out how monitoring could benefit your hip pocket!

9 am to 3 pm Wednesday 26th July 2017

Mike O'Keefe Woodland Centre,
80 Mann St Armidale

Members - Free. Non-members \$20.

Book at <https://www.stickytickets.com.au/54885>
to secure your spot as places are limited!

For more information contact

Armidale-based ICT International is a leader in precision agricultural solutions and wireless sensor networks. Their aim is to enable better global research outcomes in soil, plant and environmental monitoring.

This event is part of the \$25 million of National Landcare Programme investment to boost farm gate productivity and improve environmental health across NSW.
