

Rehydrating Roumalla Creek Catchment —

An Introduction to Natural Sequence Farming with Stuart Andrews

Saturday 28th March 2020
'Balala Station'

Join Stuart Andrews of Tarwyn Park Training for an introduction to rehydrating your farm using Natural Sequence Farming techniques.

During this field day you will learn how to:

- Increase resilience in the face of a changing climate
- Read landscapes
- Fully utilise your farm's natural resources
- Locate, design and build landscape structures
- Redesign your property
- Begin improving landscape function on your farm
- Increase water storage capacity
- Increase biodiversity
- Reduce run-off and control erosion
- Lower your farm costs and boost profits.

Stuart Andrews is a farmer who has dedicated over 30 years of his life to understanding, practicing and teaching land rehabilitation techniques.

Stuart was raised on 'Tarwyn Park', Bylong, the celebrated home of Natural Sequence Farming, pioneered by his father Peter Andrews.

Currently, Stuart's property in 'Kybong' marries NSF with other tried and tested models of regenerative agriculture.
